### RUSSIA INVADES UKRAINE

Can one man decide to start a war when the rest of the world is against it? We are just recovering from the 'corona virus' crisis and trying to return to normalcy when we hear Russia has attacked Ukraine killing several Ukrainians including children.

Hindu Forum of Europe condemns such heinous attack during the Pandemic!!!

Hindu Forum of Europe & Sanatan Dharma pray for the people of Ukraine and specially the 20,000 plus students and medicos & 400 Indian families who are stuck in Ukraine and all the other Ukrainians.

It is not too late to withdraw the troops and save the killings of innocent people.

Once the war is over leaders will do the hand shake. But what happens to sons, daughters, parents waiting for their kith & kin to come back. Will they ever see them again?

Hindu forum of Europe is requesting Russia to end the war for Humanity sake. We are one family. So let us all live in peace. Please stop the war!!

Let us all offer Prayers, to calm the mind as well as to send positive thoughts to those who are suffering and living in the mouth of death.
